

LAB Manual 12

Coin Shop & Multiple Characters

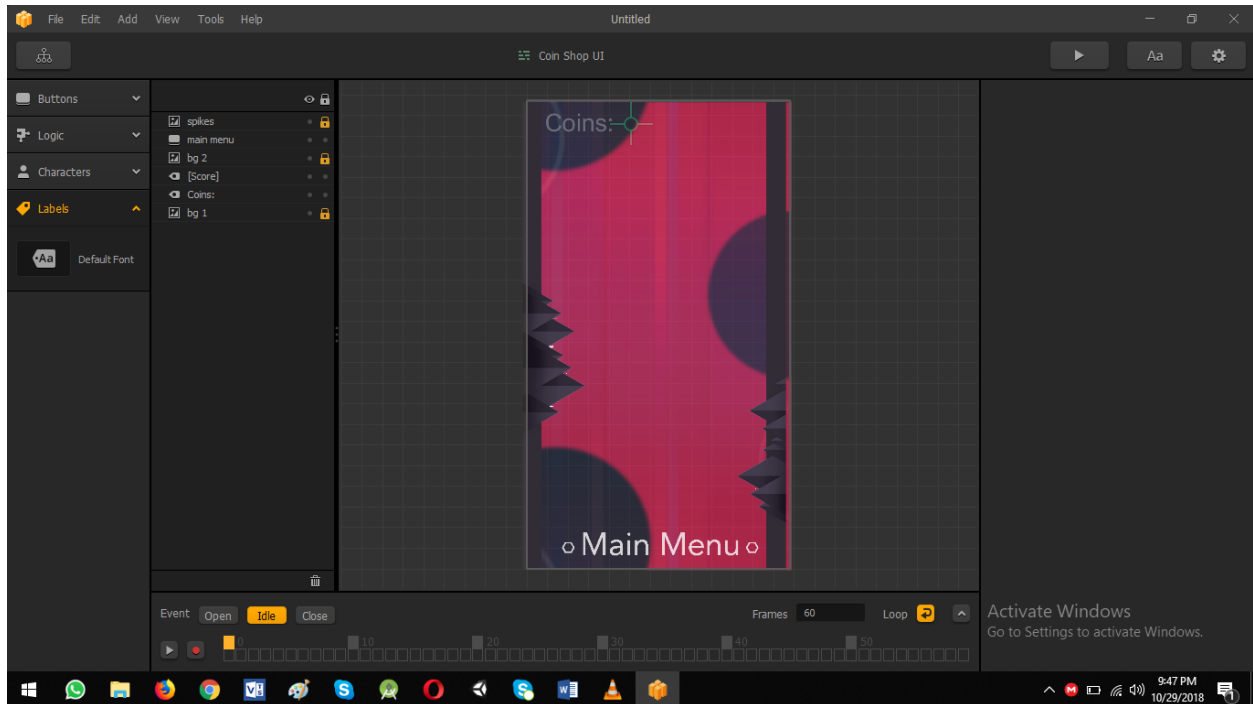

- Create a coin shop
- Duplicating characters
- Changing graphics and character settings
- Add character purchasing to the shop

Double click on Main Menu UI

- Drag the coin shop button as navigation button
- Rename it to coin shop

- Go to menu editor button
- Duplicate the turbo UI
- Rename it to Coin Shop UI
- Delete the unnecessary buttons etc
- Now coin shop is ready

Now let's add multiple characters

- Go to original world
- Select our character in the assets panel
- Duplicate the original character, name it to pink
- Rename the second character to Orange after replacing the png images sequence
- Double check the collision shape
- Then add in game currency to this character to 10
- At the bottom add the character component – Character icon
- Add other character as well
- You can add characters as you want

Now move to coin shop UI

- Go to Characters option
- See you 2 buttons – multiple unlock & single unlock
- Just drag the multiple unlock button to coin shop
- Make it wider
